

DUONG HAI DONG

PROFILE

Recent Computer Science graduate with experience in software development, backend logic, and application design. Skilled in C/C++, Python, C, and JavaScript with hands-on experience building real-world applications such as POS systems and browser extensions. Seeking a Software Engineer role to build reliable and scalable software systems.

INFORMATION

- **DOB:** March, 2003
- **POB:** Vinh Long (prev Ben Tre)
- **Languages:**
 - Vietnamese: Native
 - English: TOEIC (1100/1390)

SKILLS

- **Languages:**
C/C++, Python, C#, Java, JavaScript
- **Software Development:**
OOP, DSA, MVVM Architecture
- **Frameworks & Libraries:**
.NET, WinUI, React
- **Tools:**
Git, Vite, MySQL

EDUCATION

BACHELOR OF COMPUTER SCIENCE. Faculty of Information Technology.
University of Science - VNUHCM.

2021–2025

- ◇ GPA: 3.2/4.0
- ◇ Coursework: Data Structures & Algorithms, Parallel Programming, Data Mining, Machine Learning

PROJECTS & RESEARCH

POINT OF SALE SYSTEM (Desktop Application) 09/2024–01/2025

- ◇ **Description:** A retail Point of Sale (POS) system built with C# .NET, WinUI, MySQL, following the MVVM architecture. The application supports product, category, billing, and transaction management in real time.
- ◇ **Key:** C#, .NET, WinUI, MySQL, MVVM
- ◇ **Role:**

- Designed and implemented the Category Management module using C# .NET (MVVM).
- Developed CRUD operations and enforced relational constraints in MySQL for data consistency.

THOTHAI V2.0 (Chrome Extension) 09/2024–01/2025

- ◇ **Description:** A Chrome extension providing on-page AI features such as chatbot responses, instant translation, and smart comment/caption suggestions. Built with HTML/CSS, JavaScript, React, and Vite, optimized for fast UI rendering in the extension environment.
- ◇ **Key:** React, JavaScript, HTML/CSS, Vite
- ◇ **Role:**

- Designed the UI/UX for popup menus and in-page interaction tools.
- Integrated APIs for chatbot and other language-processing features.

ENHANCING PERSONALIZATION FOR USER BEHAVIOR MINING MODELS (Graduation Thesis) 12/2024–06/2025

- ◇ **Description:** A research project improving the CPUM model for user behavior mining in e-commerce by analyzing its limitations. Experimenting with multiple classification algorithms to enhance performance and personalization across user segments.
- ◇ **Key:** Recommender System, Explainable mechanism, Surrogate model
- ◇ **Role:**

- Performed data preprocessing and exploratory data analysis (EDA) on user behavior datasets.
- Experimented with multiple classification algorithms to improve predictive performance.

OTHER ACTIVITIES

COMPETITIVE PROGRAMMING: Solved problems on LeetCode and Codeforces (last rating: 973).

MATH COMPETITION: Mathematics Without Borders (2019); 6th Iran Geometry Olympiad (Iron medal).

SOCIAL ACTIVITIES: Volunteer collaborator at “Chong Chong Tre” Book Fair (Ben Tre, 2019).
